Delta 9 is widely known that most people just call it “THC.” You’ve probably heard of Delta 9 without even realizing it.

EpicKube Fast Melts and Gourmet Caramels are Hemp-derived Delta 9 THC, which is federally legal in the United States (up to 0.3% by dry weight volume). We’ve packed each powerful EpicKube gummy and caramel with the best D9 that you can experience. Now you can live the EpicKube power of pure Delta 9 with EpicKube products no matter where you live!

### ARE DELTA 9 GUMMIES AND CARAMELS LEGAL?

Hemp-derived Delta 9 products are federally legal in the United States! The 2018 Farm Bill goes over all of the legislation. Delta 9 comes from cannabis plants, but there are actually two varieties of cannabis: hemp and marijuana. The Farm Bill established clear definitions of these two plants that apply in every state. Hemp and hemp products cannot exceed 0.3% Delta 9 THC by dry weight volume. Any plant that goes over that limit counts as marijuana. Some states have enacted new laws to legalize marijuana. However, it is still illegal on the federal level. That means Delta 9 gummies are only legal when they come from hemp and contain no more than 0.3% D9. EpicKubes Gourmet Gummies and Caramels are legal because we only use hemp!

EpicKube products max out the legal limit of Delta 9 without exceeding it, giving you a potent, legal hemp/D9 product to use and create a business from. EpicKubes are as potent as they come and are a legal way to create a great business.

### What is the difference between Delta 9 and Delta 8?

Although Delta 8 is another strand of cannabinoid found in plants belonging to the cannabis family, it is an isomer of the more traditional Delta 9 and is not nearly as potent.

According to data published by medical professionals, Delta 8 contains about 50 percent fewer psychoactive properties than what is traditionally found in Delta 9. EPICKUBES Delta-9 products are a hybrid of indica and sativa.

### How long does it take for EPICKUBE D9 gummies and caramels to work?

The average onset time is between 5 to 15 minutes. However, several factors affect such numbers, including:

- Age
- Gender
- Metabolism
- Previous use of Delta 9
- Time since your last meal
- Weight

### OUR VISION

Feeling great should be something you do everyday. EpicKube products provide that “feel good” with all the other benefits of Hemp CBD and THC delivered to you! Safely to your home, office or event.
